Home Learning Activities

Nursery- Spring 1 2018

<p>More and Less.</p> <p>Try comparing 2 groups of objects. You can talk about which group has less? Which group has more? You could do this with food, coins, toys, anything!</p> 	<p>Number mark making</p> <p>Encourage your child to develop an interest in making marks on paper with pencils, pens, paint etc. Talk with them as they draw lines, dots, squiggles about how many they have drawn (another great opportunity to practise counting) and the shapes that they have made. Make a purpose for their writing e.g. shopping list.</p> 	<p>Height</p> <p>Encourage children to have a go at measuring objects of different heights using string. Talk about items/ objects that are tall and objects that are short. See if they can work with you to order the objects from shortest to tallest.</p> 	<p>Number Recognition</p> <p>Talk about numbers that you can see in the environment. On the way to school, for example, you might see door numbers, numbers on buses and car registration plates.</p> <p>You can write some numbers and scatter them on the table and ask your child to find number.</p> 
<p>3D objects</p> <p>Have a look at the different objects in your house. What shape are they? Get them to go on a shape hunt around the house or in the local area and see if they can find the different shapes.</p>	<p>Patterns</p> <p>Can you and your child spot patterns in the world around you? Can you make your own patterns with coloured toys or everyday objects e.g. spoon, fork, spoon, fork. Remember to tell your child that a pattern is the same thing repeated over and over again.</p>	<p>Weight</p> <p>Let your child explore with a range of objects that are heavy and light. Encourage them to feel it in their hands and see if they can find other objects that are heavier or lighter than the one they are holding.</p>	<p>Counting objects 1 at a time</p> <p>Involve children in setting up for lunch dinner, getting ready for school or family events. Make a list of items needed and quantity. Encourage children to collect items on the list and set the items up one at a time.</p>
