Children seen for SaLT this term:	0	Number of Professional Meetings attended by the team this term:	5
Number of Online sessions this term:	4		

Child Quote

You spread happiness everywhere you go, thank you for the great opportunity. -Yr6 6xTT

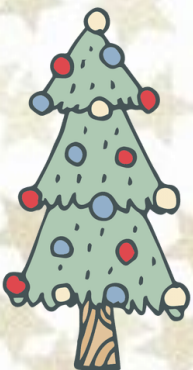

Termly Update

Due to Covid the way we work has changed, we continue to offer a full service in line the government guidelines and restrictions. This means the quantity of work has slightly decreased but the high quality remains the same.

We will sadly say goodbye to Francesca Crocker who has been a trainee with UP for over 2 years, she has recently been promoted to TM, Congratulations!

We have also welcomed Mez (OT), Jenny (QT) and Dhana (TT) to the team, they have been invaluable and have already contributed so much to the service, well done.

Lunchtime Club

This term I have been able to work with a group of Yr6 girls who have been experiencing friendship issues. We have worked towards building better communication, transparency, openness, and respect. While strengthening these key skills they have been working together to make heart shaped scented bags, lavender and bergamot have been the most popular scents so far!

6xTT

This term I have been supporting a Yr4 student who has been struggling to attend school, we made a book about a big bear who has lost his hat. The story is based around fear and overcoming your worries. During our sessions we were able to explore their fears and think of ways to overcome them.

OT Intervention

Mez has worked with over 15 children this term. Our OT students can support a wide range of needs, this term Mez mainly worked with fine motor skills, concentration, and focus based needs. With the support from our OT lead and Manager, Mez helped design a sensory gym for the SEN children at Osmani.
